

2100 High Performance Wax

Thermal Transfer Ribbon

Description:

Our resin-enhanced wax offers superior abrasion resistance when compared to conventional wax products. The 2100 ribbon provides excellent print quality on normal and rotated bar codes on coated and uncoated labels and tags, as well as many matt synthetic materials. Also, its low printhead energy requirements for image transfer make it the ideal choice for extremely high-speed print up to 304.8mm/sec.

Suggested Applications:

- General purpose labelling
- Shipping and receiving
- Inventory tracking
- Warehousing & Distribution
- Retail labels / tags
